Hohe DSGVO-Strafe für die AOK wegen werblicher Verwendung von Gewinnspieldaten

NEWS 06.07.2020 Schwere Datenschutz-Verstoß in Baden-Württemberg

Haufe Online Redaktion

Bild: Gerd Altmann/ pixabay.com
Bei der Datenschutzgrundverordnung ist die Zeit der Eingewöhnung vorbei – die Datenschutzbeauftragten langen hin.

Die AOK Baden-Württemberg muss nach einem DSGVO-Verstoß eine Geldbuße in Höhe von 1,24 Millionen Euro zahlen. Die zuständige Landesbehörde verhängte die Buße, weil die Krankenkasse Daten von Gewinnspielteilnehmern auch ohne deren Zustimmung zu Werbezwecken verwendete. Ohne AOK-Schadensbegrenzung wäre die Strafe noch höher ausgefallen.

Capgemini advantage: Global Cyber Defense Scale

Graphics shows illustrative global network of Cyber Defense Center, Research labs and Innovation Centers (AIE)

A tangible reduction in both the frequency and duration of major cyber security incidents

Actionable insight on security threats leading to:
Improved defensive posture for new and emerging threats;
Ability to conduct advanced analytics on suspect artefacts and proactively protect the technical environments we monitor.

Vast experience with businesses of all types and sizes in every industry

Consistently innovate

Benefits of our global CDC's

- Expertise of 3000+ security professionals
- Proven processes and technologies
- Complete visibility into IT and security systems
- Advanced analysis of data and threat intelligence

Positive results

- Cyber Attack Platform: We find holes in your security, you didn't see before
- Prevent incidents, detect threats, and respond to attacks like no one else
